Across Boundaries: Asian/ America

Asian/Asian American, immigrant/citizen, American-born/foreign born, multicultural/global—these are just a few binary oppositions that exist in both academic and public discourses. In this roundtable discussion, we explore the following questions: As Asian American faculty members, how do we cross borders in our personal and professional lives? How do we forge connections between Asia and Asian America, or global and multicultural perspectives, in our teaching and research?
